## ABOUT ME

Multidisciplinary visual artist and ICT engineering student specializing in graphic design, short-form video editing, and modern UI aesthetics. I bridge the gap between creative visual storytelling and functional frontend development to build polished, user-centric digital experiences. Passionate about combining modern design tools with technical frameworks to capture attention and maximize audience engagement.

## EXPERIENCE

### Graphic Designer & Video Editor | Freelance / Portfolio Projects

- Designed cohesive digital branding and marketing templates using Canva Pro, while leveraging AI generation tools for unique campaign visuals. Additionally, edited high-retention short-form videos in CapCut with precise audio-syncing and trending effects, optimizing visual pacing to maximize audience engagement on social media.

### UI/UX & Interaction Designer | ARniture (Augmented Reality App)

- Designed the visual layout and intuitive user interface for an interactive 3D spatial application. Focused on responsive mobile design principles to create a clean, modern experience that allows users to seamlessly visualize and manipulate 3D models in their real-world environment

### Front-End UI Developer | CREART Certification Project

- Developed user-centric web interfaces with a strong focus on modern digital aesthetics and color theory. Successfully bridged the gap between creative Figma mockups and functional HTML/CSS code, ensuring the final programmed product perfectly matched the initial creative vision.

### Visual Asset Manager | TextARact Application

- Designed a highly accessible, minimalist interface for a text-extraction tool tailored for a diverse user base, including visually impaired individuals. Focused heavily on clean typography, strong visual hierarchy, and overall ease of use to ensure the app is both functional and visually appealing.

## SKILL

### Video Editing & Storytelling

- CapCut
- Short-Form Video Editing
- Audio-Syncing & Visual Pacing
- Visual Storytelling

### Front-End Development

- HTML & CSS
- JavaScript, React.js, Next.js
- Front-End UI Development

### Creative & UI/UX Design

- Figma | Canva Pro
- UI/UX & Interaction Design | 3D Spatial UI
- Modern UI Aesthetics & Visual Hierarchy
- Typography & Color Theory
- Accessible Design | Responsive Design Principles
- AI Image Generation

## EDUCATION

**GEC BHAVNAGAR** - Bachelor of Engineering in ICT  
Sep 2023 – May 2026  
(CGPA- 8.19)

**A.V. Parekh Technical Institute** - Diploma – Computer Engineering  
Aug 2023 (SPI: 9.00,  
CGPA- 7.93)
