SUMMARY

Passionate and detail-oriented Information & Communication Technology student with hands-on experience in Frontend and Full Stack Web Development using React.js, Next.js, JavaScript, PHP, and MySQL. Skilled in building responsive web applications, REST APIs, authentication systems, and modern UI/UX interfaces. Possesses practical exposure to website optimization, technical SEO, and performance enhancement techniques. Developed innovative projects involving AI-powered assistive systems, Augmented Reality applications, and OCR-based solutions. Seeking opportunities as a Frontend or Full Stack Developer to apply technical, problem-solving, and creative development skills in real-world environments.

TECHNICAL SKILLS

Programming Languages - JavaScript (ES6+) - Python - Java - C	Frontend Development - HTML5 - CSS3 - React.js - Next.js - Tailwind CSS	Backend & Database - PHP - REST API Development - MySQL - SQL
Mobile & AR Development - Android Development - ARCore - Sceneform	Tools & Platforms - Git & GitHub - Visual Studio Code - Chrome DevTools - Figma - Arduino IDE	Other Skills - UI/UX Design - SEO Basics - Responsive Web Design - Authentication Systems - JWT Authentication - bcrypt Security - OCR Integration

PROFES- SIONAL EXPERIENCE

Web Development Intern Xceptive Solutions LLP 3 Months - Developed responsive frontend interfaces using HTML, CSS, JavaScript, and React.js. - Assisted in UI implementation and reusable component development. - Participated in debugging, testing, and responsive design improvements.	Jan 2026 - Apr 2026
Web Development Intern CreArt Solutions Pvt. Ltd. 2 Months - Learned frontend development concepts and responsive web design practices. - Developed a personal portfolio website during internship training. - Worked on layouts, styling, and modern UI implementation.	July 2025 - Aug 2025

PROJECTS

Influencer Market Place Tech Stack: Next.js, React.js, PHP, MySQL, Tailwind CSS, JWT - Developed a full-stack influencer marketplace platform with secure authentication and role-based access. - Implemented JWT authentication, bcrypt password hashing, and email verification using Nodemailer. - Designed responsive frontend interfaces using React.js and Tailwind CSS. - Built RESTful APIs and integrated MySQL database management. - Created multi-step onboarding forms with localStorage state management. - Improved user experience with optimized routing and scalable database architecture.
--

Interior Designing using AR

Tech Stack: Android Studio, Java, ARCore, Sceneform

- Developed an Augmented Reality-based Android application for virtual furniture placement.
- Implemented real-time object placement using ARCore and Sceneform.
- Designed interactive controls for placing, resizing, and removing 3D models.
- Integrated RecyclerView for selecting multiple virtual objects.
- Managed .sfb and .obj assets for high-quality 3D rendering performance.

Vision For You – Image Rendering for Blind People

Tech Stack: ESP32-CAM, Google Gemini API, Python, Google TTS, Arduino IDE

- Developed an AI-powered assistive wearable device for visually impaired individuals.
- Integrated ESP32-CAM for capturing environmental images in real time.
- Used Google Gemini API for image recognition and scene understanding.
- Implemented Google Text-to-Speech (gTTS) for audio-based scene descriptions.
- Optimized image processing and audio output latency for better user experience.
- Combined embedded hardware with cloud-based AI technologies for accessibility solutions.

TextARact – Smart Text Extraction System

Tech Stack: Python, OpenCV, Tesseract OCR, Android Studio

- Developed a smart OCR-based assistive hardware system for automated text extraction from real-world images.
- Integrated ESP32-CAM to capture images at regular intervals for continuous text recognition.
- Implemented Tesseract OCR and OpenCV for image preprocessing and accurate text extraction.
- Converted extracted text into audio output using Text-to-Speech technology for accessibility support.
- Utilized APIs and automated processing workflows for real-time text recognition and audio feedback.

EDUCATION	Government Engineering College (GEC), Bhavnagar	
	Bachelor of Engineering in Information & Communication Technology	Sep 2023 – May 2026 (SPI: 8.67, CGPA- 8.19)
	A.V. Parekh Technical Institute	
	Diploma in Computer Engineering	July 2020 – Aug 2023 (SPI: 9.00, CGPA- 7.93)

CERTI- FICATIONS	• Internship Certificate – Xceptive Solutions LLP • Web Development Internship Certificate – CreArt Solutions Pvt. Ltd. • Angular & .Net Internship Certificate – TatvaSoft

LANGUAGES	• English
	• Hindi
	• Gujarati
